Sciences**

Continuing Education Programme

On

**Educational Technology and Language
Classes**

(01-02 June 2020)

Description:

Technology has become a key player in the education scenario. It is a motivating and stimulating device for students. This course has been designed keeping in mind the current pandemic and how technology can be made a part of language teachers' current and future career. The course will cover theoretical and practical issues in language teaching and the use of technology to enhance the learning process.

Objectives and Outcomes:

The objective of the course is to positively affect the lives of teachers and students in current times. It will help teachers understand how to take lessons to children when they can not come to schools. It will help teachers to understand pedagogical practices with regard to language teaching and identify technology resources and their potential for language classes. The course will be delivered digitally.

Course Content

- Language Theories and Pedagogical Practices
- Web 2.0 Technologies and Interactive Technologies
- Connecting reading and Writing
