

M.Tech selection process, July 2021: Cut off

A few queries have been received regarding Cut off in M.Tech selection process. Attention is drawn again on the following:

Cut off, given below, denotes the lowest score/rank. Merely attaining score/rank above the given cut off does not lead to offer of admission. COAP round-wise cut off may be higher than the cut off given below.

In view of the above, it is again to be noted that cut off merely indicates lowest score secured by the last waitlisted candidate(s). All waitlisted candidates cannot be considered for offer of admission. For offers, the candidates must check COAP regularly.

No query /correspondence shall be entertained regarding cut off/prospect of getting offer.
