

# Emerging Trends in Liquid-Vapor Phase Change Heat Transfer

**Online Workshop: July 17 to July 19, 2023**

## About the Workshop

The workshop will focus on the latest developments in the field of boiling and condensation heat transfer. The audience will first be introduced to the field by a series of fundamental talks on day 1. This will be followed by discussions on recent advances and emerging trends by renowned field experts on days 2 & 3. Strategies to enhance heat and mass transfer for various applications will also be discussed. Electronic certificates will be awarded to all participants after the successful completion of the workshop.
